RECYCLING / GARDEN DEBRIS ZONE MAP

Pick-up Zones

(Refer to monthly calendar for scheduled pick-up days)

Servicing the Township in eight (8) zones. They are as follows:

Zone 1- South of Route 4, West of Garrison Avenue, South of Cedar Lane, West of the Railroad.	Zone 5- East of the Railroad, North of Route 4 to West Englewood Avenue/Genesee Avenue to Englewood border.
Zone 2- South of Cedar Lane to Fort Lee Road, West of Teaneck Road to Bogota border/Railroad.	Zone 6- East of the Railroad to Englewood border, North of West Englewood Avenue/Genesee Avenue to Bergenfield border.
Zone 3- South of East Cedar Lane, East of Teaneck Road, South of Fort Lee Road to Ridgefield Park and Bogota borders.	Zone 7- West of the Railroad, East of Sussex Road/Garrison Avenue to Cedar Lane/Bergenfield border.
Zone 4- East of the Railroad, between Route 4 and Cedar Lane/East Cedar Lane.	Zone 8- North of Route 4 to Bergenfield/New Milford borders, West of Sussex Road to Hackensack border.

During emergencies or inclement weather, refer to the Township's website (www.teanecknj.gov), social media networks (facebook.com/teanecknjgov or twitter.com/teanecknjgov) for information! Stay informed with SwiftReach and Nixle emergency alerts. You can sign up through the Township website (www.teanecknj.gov) or Nixle.com.

Recycling Rules & Regulations

RECYCLING DEPOT HOURS

(Teaneck Residents Only)

FRIDAY THRU SUNDAY: 7:00 a.m. to 2:45 p.m.

Closed Monday thru Thursday and Municipal Holidays

DPW ADDRESS: 1600 River Road Teaneck, NJ

DPW HOURS: 7 a.m. to 3 p.m. Monday through Friday

RECYCLING CONTAINER(S)

PLEASE EMPTY/RINSE ALL RESIDUE FROM CONTAINER(S)

PLEASE USE YELLOW TOWNSHIP-ISSUED CANS FOR:

Commingled Recyclables:

Aluminum food and beverage containers:
Aluminum soda, beer cans, and pet food cans, etc.

Glass food and beverage containers:
Flint (clear) Amber (brown) Green

Ferrous cans:
Tin/Steel (soup, food, coffee cans, etc.)

Plastic containers with # 1, 2, 5 may include:
Soda and beverage bottles of various colors, water jugs, detergent bottles, shampoo bottles, bleach bottles, ketchup bottles, syrup bottles, and yogurt containers, etc.

Now accepting milk cartons, juice boxes, and soup or broth containers

PLEASE USE BLUE TOWNSHIP-ISSUED CANS FOR:

Paper:

Newspaper
Magazines
Catalogs
Junk Mail
Paper Bags
Cardboard
Paperback and Telephone Books
Egg Cartons (cardboard only)
Anything else made of paper

The following restrictions and criteria apply to other recycling containers used by residents for commingled recyclable material and garden debris pick-up:

- 1) Containers must be no larger than 32 gallons in size.
- 2) Containers must not have wide bottoms with narrow tops (i.e. pickle barrels).
- 3) Containers must have handles.
- 4) Containers must be made of either plastic or lightweight metal, not cardboard.
- 5) Filled containers must not exceed 50 lbs.
- 6) NEWSPAPERS/MIXED PAPER for curbside collection must be tied into bundles, not more than 12" high and secured with string, twine or cord.
- 7) Corrugated cardboard must be flattened and tied for curbside collection.

BERGEN COUNTY UTILITIES AUTHORITY

For information concerning household hazardous waste and collection events, call 201-807-5825 or visit their website: www.bcu.org.

Batteries:

The Recycling Depot accepts vehicle batteries only. This material is not picked up curbside. For all other types of battery disposal, please refer to Bergen County Utilities Authority at: www.bcu.org.

White Goods / Appliance Pick Up:

Public Works offers "white goods" pick-up curbside on Fridays by appointment. White goods such as washing machines, clothes dryers, and water heaters can be dropped off or picked up at no cost. To make an appointment, please call (201) 837-1600 ext. 1700 or e-mail dpw@teanecknj.gov.

Electronics:

Computers, laptops, servers, monitors, TV's, cell phones, telecom equipment, UPS battery back up unit batteries, laptop batteries, printers, scanners, fax machines, keyboards, mice, cable, wires, hard drives, audio equipment, microwave ovens are accepted at the Recycling Depot. **Items such as TVs or radios in large wooden cabinets are not accepted.**

Used Motor Oil:

Residents are permitted to bring used motor oil to the recycling depot during normal hours of operation. The used oil cannot be mixed with any other fluid such as antifreeze.

Recyclables should be placed curbside no earlier than 6 p.m. on the evening before your scheduled collection day and no later than 7 a.m. on the day of collection.

Listed to the left are the only accepted items!

NO PLASTIC BAGS PERMITTED

Recycling Depot News

The Township will be charging a fee of **\$20.00** for the collection of the following items: Refrigerators, Freezers, Air Conditioners, Dehumidifiers, Water Coolers, etc. The fee per unit is to cover the cost of the removal of Freon. The fee can be paid by check or money order made out to the "Township of Teaneck"; **no cash will be accepted.**

The following materials will be accepted at the Recycling Depot during the hours of operation:

MATERIAL ACCEPTED

Mixed gauge steel of any dimension
All grades of Metallic Iron & Steel
Cast Iron
Aluminum
Siding, Window frames (no glass),
Wheels (no tires)
Copper
Brass
Aluminum Copper Radiators (automobiles)
Electric Motors in any form free of
Hazardous Fluid
Washing Machines
Clothes Dryers
Water Heaters

MATERIAL NOT ACCEPTED

Wood
Dirt
Rubber
Tires
Furniture of any kind
Gas tanks
Antifreeze
Paint
Compressed Gas
Propane tanks
Pesticides
Fluorescent lights
Mercury switches
Fire Extinguishers
NO CLOSED CYLINDERS OF ANY KIND

PUBLIC WORKS DEPARTMENT

Sanitary Sewer Backup

If you are experiencing a sanitary sewer backup during business hours, residents experiencing back-ups during business hours should call the Department of Public Works at (201) 837-1600 ext. 1700. After business hours or public holidays, you should contact the Teaneck Police Department at (201) 837-2600. The Police Department will immediately relay the issue to the Township's on-call sewer crew, which is available 24 hours a day, 7 days a week. **Important: Calling the DPW or Police Department will expedite service. Do not email sewer backup issues.**

Residents are encouraged to consult a plumber for information about installing sewer backflow valves on their private sewer lines to prevent sewer backups. **This will require a Plumbing permit.** Furthermore, the Township recommends residents contact their insurance carrier to ensure they are covered against loss related to sewer backups.

The Township's sanitary sewer system is designed for human waste **only**. Sump pump flows, diapers, paper towels, cooking oils, grease, etc. are **prohibited**. Disposal of non-human waste may negatively affect your sewer line and/or the Township's sewage system.

Snow Removal Regulations

As per Township of Teaneck Code, Section 32-6, residents, property owners, and managers must remove snow and ice from public sidewalks in a timely manner. Commercial property owners/tenants must remove such within 12 hours after snowfall stops. Residential property owners/tenants have up to 24 hours after snowfall stops to remove snow and ice. In addition, walkways to the entrances of any properties should be cleared in a timely fashion to allow emergency personnel and mail delivery carriers safe and clear access to the premises. **Residents with Hydrants: The property owner is responsible for keeping fire hydrants in front of their property clear of snow and other debris so they are accessible to firefighters in an emergency.** Now is a great time to make sure that you have sturdy **shovels, working snow blowers, snow shoveling agreements, and plenty of rock salt before the next snowfall.**

Confidential Paper Shredding Dates

The Township of Teaneck provides a semi-annual Confidential Paper Shredding service. Residents may bring their confidential documents to be shredded via a mobile shredding machine that will be parked in the Municipal Building Parking Lot 818 Teaneck Road, 9:00 a.m.— 1:00 p.m. or until the truck is full. **3 banker boxes or three 13 gallon bags max per resident.**

THE 2026 DATES ARE:

SPRING:

Saturday, April 11

Sunday, April 12

FALL:

Saturday, September 19

Sunday, September 20

GARDEN DEBRIS INFO. & REGULATIONS

Garden debris is collected curbside on a weekly basis starting **March 23** through **October 9** (please refer to the calendar). Grass, leaves and small plant material must be placed in either non-disposable containers or biodegradable paper bags, weighing no more than 50 pounds each. Branches and shrubs must be cut into lengths no greater than four feet and tied into bundles weighing less than 50 pounds each. **No branches or logs 4" or greater will be picked up.** Landscapers and lawn services must comply with these requirements. Material that is not properly contained will not be picked up. Garden debris brought to the Depot does not need to be containerized or tied, but must not be in plastic bags.

STORM DAMAGE DEBRIS

If tree parts fall during a storm, you must comply with the garden debris rules and regulations unless otherwise announced by the Township.

LEAF SEASON

Leaf removal in the autumn is a monumental project that strains the resources of the DPW. During the period of leaf drop from about October to mid-December (see your recycling calendar for specific information) residents are permitted to rake leaves, loose grass, and small plants into the roadway at curbside.

The DPW collects leaves daily during this period, but the volume is so great and the weather is so unpredictable, that the leaf pickup cannot be scheduled. Be careful to only place leaves, grass cuttings, and small plant material in the leaf piles in the street. Do not place logs, branches, stones, or large plant material in the street during the leaf collection period, as they are not suitable for composting and could damage the street cleaning equipment.

Sidewalk Replacement/Root Cut

Residents are responsible for the maintenance of sidewalks adjacent to their property. In order to replace one's sidewalk, a permit must be obtained from the Engineering Department by the respective contractor or homeowner. Contractors are required to be licensed by the Township prior to any construction in order to perform concrete work in the public right of way. If tree roots are involved with the replacement of a sidewalk, the individual performing the work must contact the Public Works Department at (201) 837-1600 ext. 1751 or 1728 to arrange for the Township to evaluate and/or grind the tree roots.

If a sidewalk slab is raised but not cracked or broken, the property owner may remove or have the slab removed. Township crews will grind the roots, and the property owner is then responsible for properly resetting the slab. If a slab is cracked or broken, it must be repaired or replaced by the property owner or a licensed contractor.

Permit Requirement

Residents will be given 10 calendar days from the date of the notice to apply for a sidewalk repair permit at the Engineering Office in the Municipal Building. Failure to apply for the permit within this time may result in a Notice of Violation, which could lead to enforcement, including possible action in Municipal Court. All repairs must follow Township specifications and comply with the Township Sidewalk Protocol. For more information or assistance, contact the Engineering Office at (201) 837-1600 ext. 1728.

Leaf Collection Program

THE TEANECK TOWNSHIP MANAGER & DIRECTOR OF PUBLIC WORKS HAVE DEVELOPED A **NEW LEAF COLLECTION SYSTEM** FOR OUR RESIDENTS THAT BEGAN IN **OCTOBER 2025**

KEY DETAILS OF THE PROGRAM

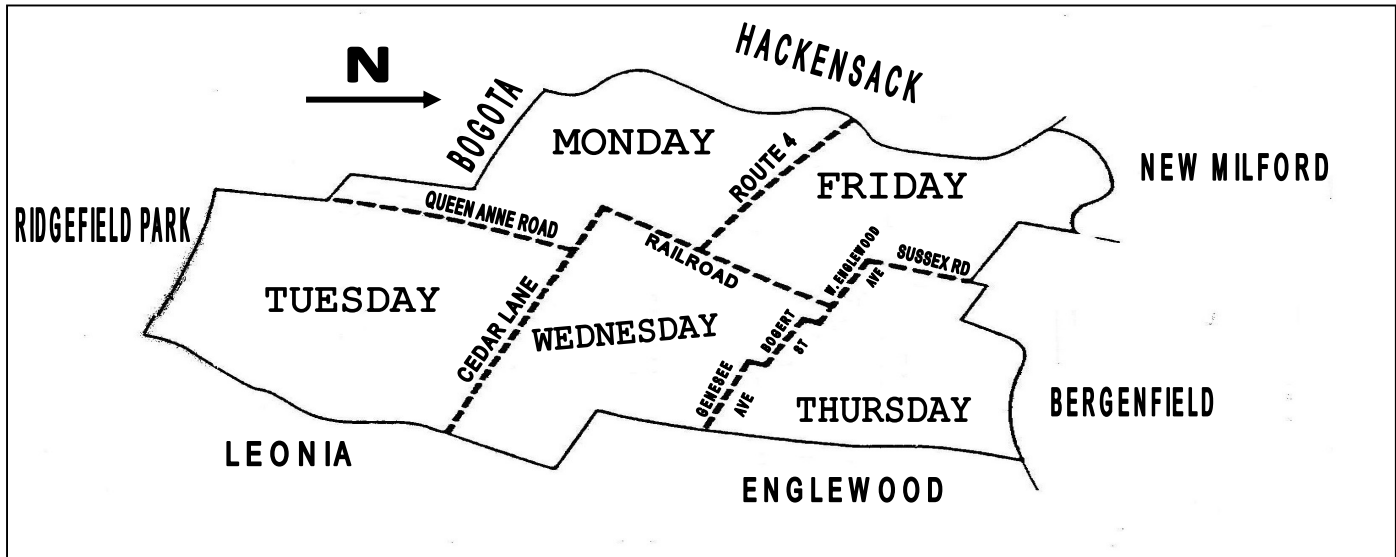

- Teaneck DPW will continue leaf collection in all four quadrants on a daily basis
- On designated collection days, parking **WILL NOT BE PERMITTED** on streets **scheduled** for leaf pickup between the hours of **7:00 AM and 5:30 PM.**
- “No Parking” signs will be posted in advance on all scheduled streets

This new system is designed to provide faster, safer, and more efficient leaf removal throughout the Township

*Contact the Teaneck Department of Public Works with any questions:
201-837-1600*

STREET SWEEPING MAP & SCHEDULE

STREET SWEEPING

In order to maintain the cleanliness of Township streets, residential streets are swept once per week; business district streets are swept five days per week. **The street sweeping schedule is interrupted only by the mammoth task of leaf collection between October and December.** During leaf pick-up season residential streets are swept on a schedule dictated by leaf accumulation.

The effectiveness of our street sweeping program depends solely upon the cooperation of residents. Street sweepers cannot get curbside when cars are parked on the street on a sweeping day. To do your part, please ensure your vehicle(s) are off the street on your respective street sweeping day, in accordance with the following schedule:

Monday South of Route 4 and west of the railroad south of Cedar Lane and west of Queen Anne Road.

Tuesday East of Queen Anne Road and south of Cedar Lane.

Wednesday East of the railroad, north of Cedar Lane to Genesee Avenue/ Bogert Street/ West Englewood Avenue.

Thursday North of Genesee Avenue/Bogert Street/West Englewood Avenue to the Bergenfield line, and east of Sussex Road to the Englewood line.

Friday North of Route 4 and west of the railroad, south of West Englewood Avenue and west of Sussex Road to the Bergenfield and New Milford borders and to the Hackensack River.

NOTE: BOUNDARY LINES BETWEEN DISTRICTS RUN DOWN THE CENTER OF THE STREET.

Snow Emergency—No Parking

Parking of any vehicle on any portion of a public street is prohibited whenever snow is falling and the accumulation is such that it covers the public streets in the township and plowing is required, except where designated. **The term "snow" includes sleet, hail and/or ice.**

- ◆ Before storms begin, the main streets will be pre-treated with an environmentally safe solution that reduces the temperature at which snow freezes.
- ◆ During storms, snowplows will concentrate on keeping two lanes clear on every street.
- ◆ After storms, plows will return to widen the streets curb line to curb line.

PLEASE wait to do your final clean-up after the streets are cleared, which is typically six (6) to eight (8) hours after the storm is over.

For additional off-street parking, residents are encouraged to use any of the municipal parking lots. Beginning six hours before snow fall is predicted to start and until 24 hours after snow fall has stopped, all hourly limits and meter fees in Township lots are waived. Please refer to the Township's website: www.teanecknj.gov for the list of municipal parking lots and authorized parking areas.

During winter months, snow and ice must be removed from public sidewalks after cessation of a storm. Commercial property owners or tenants have 12 hours to clear sidewalks; residential owners have 24 hours. Additionally, people who own properties at corners and at mid-block crosswalks must shovel a pathway from their shoveled sidewalk to the plowed portion of the street so that pedestrians can cross safely. Snow emergencies will be announced via Nixle & SwiftReach text message alerts. (See Page 8 for information on how to sign up.)

RESIDENT RAILCAR EMERGENCY PREPAREDNESS

Teaneck records show the rail line has been active since 1873. There have only been two train accidents in Teaneck: one in 1930 and one in 1960. In both accidents, no hazardous materials were released and there were no injuries or damage to Teaneck residents or businesses along the tracks. There have been several cargo fires and releases of Anhydrous Ammonia and muriatic acid vapors. Teaneck Fire Department has long been prepared for such occurrences. The 1977 anhydrous ammonia release occurred in the early morning hours on a hot night. It resulted in 50 people being brought to hospital emergency rooms, but few required any additional care. Since CSX took over the rail line, there have been no rail emergencies.

CSX track maintenance is nationally recognized for excellence. It is still incumbent on Teaneck's public safety agencies and residents to continue to be ready. Trains traveling through Teaneck carry sulfuric acid, propane, industrial alcohol, liquefied petroleum gas, anhydrous ammonia, vinyl chloride, and a host of other hazardous materials.

While a rail emergency is unlikely, if one occurs, it will be a major emergency. Due to Teaneck's population density, an evacuation order will require at least 8,000 people to immediately leave their homes, schools, or other places to move at least 1/2 mile from the rail line. If you live on the **east side of the tracks**, you will **evacuate to the EAST**. If you live on the **west side of the tracks** you will **evacuate to the WEST**.

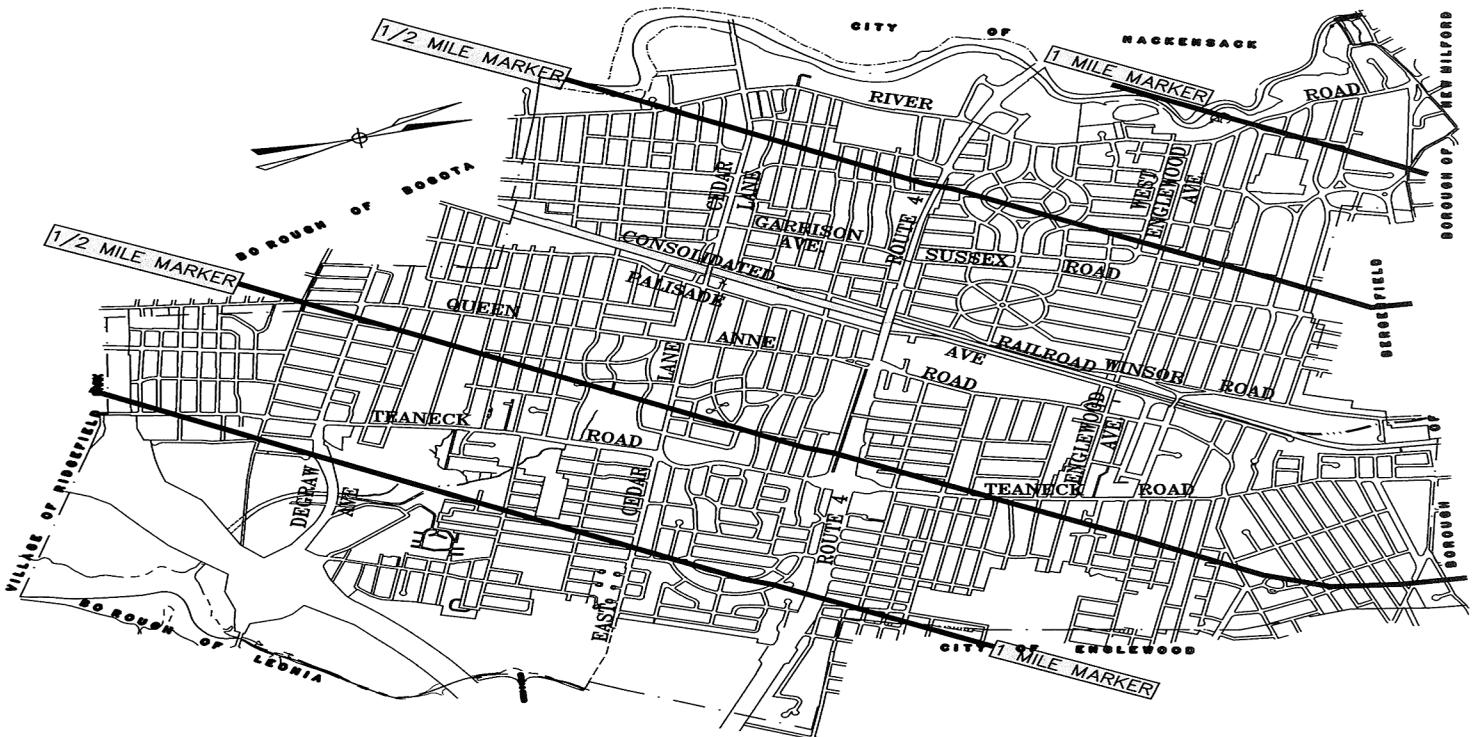

Neighbors and Neighbor groups: are the success to getting through a disaster. You need to get together with your neighbors and make plans and determine your needs, whether its evacuation or securing your property. Neighbors helping Neighbors. Have your plans in place and practice those plans. Being prepared and hoping you never have to use the plan is your best chance of survival. Announcements

of the initial evacuation and follow up information will be made by the reverse emergency calling system: Township alert system, Nixle, mobile public address units and Outdoor Audible Neighborhood Emergency Alert System. The most important component in an emergency is your preparedness. You are encouraged to review the Township's "Resident Preparedness Guide for Emergencies". You will find the guide on the Township's website: www.teanecknj.gov. You should sign up for all of the various notification systems on the Township's website. Listed here are key areas in which preparedness is important in order for you to manage the potential impact of a rail line incident:

Evacuation Routes:

The areas that will be evacuated depend on the exact location of the incident. If you are located within one half mile of the incident you may be told to evacuate. **If you live on the east side of the railroad, you should evacuate via the nearest east bound through street from your home. If you live on the west side of the railroad, you should evacuate via the nearest west bound through street from your home.** You need to identify your location, in advance, of an emergency. Please reference the attached **RAILROAD INCIDENT EVACUATION MAP**, that shows the Township's established evacuation zone for one half mile of the railroad tracks. If you have any mobility concerns, have a plan in place as to whom or how you are going to evacuate. Calling '911' during an emergency for a ride is not the correct time. Planning needs to be worked out ahead of time with a neighbor and practiced. **It is imperative for everyone to have a plan for evacuation before an emergency situation.** Often federal and state highways and other primary roads are designated as evacuation routes by authorities. Be aware that the Township's Office of Emergency Management (OEM) may issue specific evacuation routes.

RAILROAD INCIDENT EVACUATION MAP

EMERGENCY PREPAREDNESS

(continued from page 7)

We recommend you leave the Township as the nature of the emergency will make traveling difficult if not impossible.

Identify in advance where you will stay after you leave the local area. This could be at the home of a family member, a friend or a hotel/motel that meets your family's needs.

Meeting Places:

Make sure that your loved ones know where to go after getting out of the house. Pick two places to meet: 1) in your neighborhood in proximity to your house in the case of a sudden local emergency such as a house fire and 2) outside your neighborhood in case you cannot return home due to a major emergency.

Emergency Family Contacts:

Pick your family contacts: two people you and your family members can call in case you are separated in an emergency and need to report in regarding your status (example: "we are okay"). Remember that local telephone service may be disrupted. So it is important to have both a local contact and one who is outside of the area—preferably in another state.

Unique Needs:

Your emergency plan options must be able to accommodate any unique needs related to family pets, infants or small children and any family members with health, disability or mobility issues. If someone has trouble seeing, hearing, walking, responding to instructions, or has medical problems, you will have more to do to be prepared for an emergency. Furthermore, each household should prepare a "To Go" Kit.

CONTENTS OF "TO GO" KITS:

For Adults, Elderly or Disabled

- ◆ Prescription drugs (one-week supply minimum)
- ◆ Extra eye glasses or contact lenses and supplies
- ◆ Mobility aids (wheelchair, cane)
- ◆ Hearing aids and extra batteries
- ◆ Special medical supplies (colostomy supplies, insulin and syringes, denture supplies)
- ◆ Entertainment items (games, cards, books)

- ◆ Cell phone and charger
- ◆ Laptop, iPad, electronic communication

Important Family Documents

- ◆ Drivers licenses and passports
- ◆ Credit card account numbers
- ◆ Bank account numbers
- ◆ Inventory and pictures of valuable household goods
- ◆ Certificates of birth, marriage, etc.
- ◆ Family health information (allergies, special treatment needs and the like)

For Pets

- ◆ Pet food and treats
- ◆ Collar, leash and identification tags
- ◆ Muzzle (if needed)
- ◆ Pet carrier or cage
- ◆ Medicines
- ◆ Copy of immunization records
- ◆ Comfort items (bed, special blanket, favorite toy)
- ◆ Litter box

The Red Cross has a **Safe and Well** registry that enables people within a disaster area to let their friends and family outside of the affected region know of their well-being. Also, there is telephone based assistance at **1-866-GET-INFO (1-866-438-4636)** for people without internet access.

COMMUNITY EMERGENCY RESPONSE TEAM

The Community Emergency Response Team (CERT) program educates volunteers about disaster preparedness for the hazards that may impact our community. The program will train residents in basic disaster response skills, such as fire safety, light search and rescue, team organization, and disaster medical operations. The Teaneck CERT team is supervised by the Township's Office of Emergency Management. Any resident interested in attending CERT training can e-mail Tsmith@teanecknj.gov.

EMERGENCY PREPAREDNESS

Sign Up For Emergency Alerts!

Residents can sign up to receive several different e-mail, text and/or telephone alerts about township events or emergencies and severe weather incidents.

SIGN UP TODAY! To begin the sign-up process, go to the Township website at www.teanecknj.gov, click on “**Sign Up for Township Alerts**” by clicking the button under the “popular services”. You will be taken to a new page with several alert options available. Complete the “subscribe” form to receive general news and reminder emails. You also may sign up for website calendar reminders on this page.

Also on the Township alert sign-up page, there is a “**Everbridge 9-1-1**” link where you can sign up for the Everbridge Emergency Notifications by phone, email, and text message. Click the “**Register Now**” link and complete the form at the Everbridge sign up. After completing the form, you will receive a **4-digit Confirmation Code** via email or phone message. Upon receiving the confirmation code, enter it into the “Registration Verification” box and click “Complete Registration”. You are now registered with Everbridge to receive alerts through your landline telephone, cellular phone, and via text message. Save your username and password to the Everbridge portal as you may edit your vital information at any time by logging in to the system by visiting <https://everbridge.com> and then click on “Customer Login”.

Lastly, to sign up for “**Nixle**” text message alerts from the Teaneck Police Department, click on the **Nixle** link and you will go to a page with a sample of recently sent message samples. Click the “**Sign Up!**” button in the lower left corner of this window.

MASS NOTIFICATION SYSTEM

The Township Public Warning System is **fully operational**. There are 10 public warning towers in service. In the event of a town-wide emergency, they will be activated to send a warning siren sound, followed by a pre-recorded voice message. The system is also capable of broadcasting a live voice message. Messages that require an evacuation will be preceded by a warbling high-low tone. Messages that require shelter-in-place will be preceded by a wailing siren tone. Any message about utility failures will be preceded by a 'whooping' tone. This system is primarily designed to warn people who are outdoors; however, people indoors will likely be able to hear the tones and can access the voice messages by merely opening a door or window.

RECEPTION/WARMING &

COOLING CENTERS

In the event of a significant emergency, the Township has designated temporary shelters. Residents who need temporary shelter should first call the Teaneck Police Department at **(201) 837-2600** to confirm activation of temporary shelters. The Richard Rodda Community Center, located at 250 Colonial Court, is the official Reception/Warming and Cooling Center for public use. Furthermore, the Township has partnered with the Teaneck Board of Education to open specific schools as temporary shelters during emergencies.

Emergency Information Hot Line

The Township of Teaneck maintains a record emergency information hot line that will repeat messages sent via the public warning system, Nixle and the other township notification channels. To hear these important notifications, please dial **(201) 837-4837**. **DO NOT USE THIS NUMBER TO REPORT EMERGENCIES. IT IS ONLY FOR YOU TO RECEIVE INFORMATION** during town-wide emergencies. To report emergencies any time, including during a town wide emergency, dial 9-1-1 or pull a fire alarm box.

MISCELLANEOUS

Daylight Saving Time Dates

Daylight Saving Time will begin on **Sunday, March 8, 2026** and end on **Sunday, November 1, 2026**. Remember that when Daylight Saving Time begins, you set your clock ahead an hour. When it ends, you set your clock back an hour.

TEANECK HIGH SCHOOL FORUM

Snow Removal Assistance

If you are looking for reasonable rates and reliable workers, the students at Teaneck High School are available during the winter months to shovel snow for local residents. If you are interested, please call the **FORUM** at: (201) 833-5400 ext. 6283.

Go Green!

Bring Your Own Bag

Plastic bags do not biodegrade in landfills. Billions end up in our rivers and oceans, posing a danger to wildlife. You can help by **BRINGING YOUR REUSABLE BAGS** when you shop for groceries, etc. Just say, "I have my own bags". Keep a bunch in your car so you'll be prepared to help save our planet.

Refuse, Reuse, Recycle, Rot (in that order)

Refuse what you do not need (say no to that extra straw, bag, pen, etc.). Reuse what you can; recycle what you cannot, Rot (compost) the rest. Adjust, plan ahead, be part of the solution!

Don't Keep Your Motor Running

New Jersey idling law requires engines to be turned off if not moving for three minutes. This also applies to trucks and school buses.

Low Water Lawn Care

Use water wisely- 30% of water consumed goes to watering lawns. Water only when the soil is dry, at dawn or dusk. Mulch flower, vegetable, tree and shrub beds to help retain moisture.

Reduce Balloon Litter

Balloon pollution is a growing problem. Releasing balloons is simply littering. Mylar balloons (metallic) are even less friendly to the environment-they are made from metalized polyester, which is dirty in both production and disposal.

Avoid Plastic Water Bottles

Carry your reusable water bottle: Teaneck water fountains and drinking water are tested and are safe! Install a filter on your home tap and save money. Bring your reusable coffee cup. It is cheaper and saves paper, plastic, or Styrofoam cups (Styrofoam is not biodegradable so try to avoid it).

If you have any questions or comments please contact us at: www.teanecknj.gov/environmental-commission

Consider Composting & Leave the Leaves

Did you know that 25-35% of household trash can be composted? You can compost food scraps, weeds, paper products, coffee grinds and filters, cut grass, leaves, and more. 20% of landfill volume is compostable household waste. Avoid fertilizers, and mulch by using your leaves! Mulched leaves improve the soil's water retention and provide critical nutrients. Depending on the amount, you can add the surplus leaves to your flower beds, under bushes, or in your composter.

Yay

All Food Scraps

- ✓ Fruits and Veggies
- ✓ Egg Shells
- ✓ Coffee Grounds, Filters
- ✓ Tea Leaves (no metal staples or plastic bags)
- ✓ Bread, Nuts, Grains
- ✓ Dairy, Oil
- ✓ Fish, Shellfish Scraps and Shells
- ✓ Meat, Bones

Paper

- ✓ Napkins/ Paper Towels (Free of Any Cleaning Agents or Chemicals)
- ✓ Shredded/ Torn up Paper + Newspaper (Matte and Uncoated Only)
- ✓ Matte, Uncoated Cardboard (Free of Tape, Stickers, or Glue Residue)
- ✓ Matte Pizza Boxes (No parchment paper)
- ✓ BPI Certified Compostable-ware (bags, utensils, cups, etc.)

Nay

Plastic

- ✗ Veggie/Fruit Stickers

Plants

- ✗ Diseased Household Plants, Commercially-grown Flowers
- ✗ Yard Trimmings/Plants Treated With Chemicals

Paper

- ✗ Toilet Paper and Tissue
- ✗ Any Type of Coated Paper (i.e. Receipts)

Other

- ✗ Pet or Human Waste
- ✗ Chemicals, Synthetic Materials
- ✗ Cleaning Products
- ✗ Plastic, Glass, Metal

Teaneck Compost Program

Teaneck's Compost (NC) Program offers a centralized location for residents to drop off compostable waste. The compostable waste is picked up by Neighborhood Compost transformed into compost soil on their NJ farm. Compost ready soil is then delivered back to Teaneck for residents to use in their gardens several times a year. Please contact the Teaneck Environmental Commission, envcomm@teanecknj.gov to learn more & register for the program. Please note, depending on interest, there might be a waitlist for the program. Please see to the right for a list of "yay" or "nay" compostable products.

SMOKE DETECTORS

F.Y.I.

Type of Smoke Detectors to Purchase

All battery type smoke detectors shall be the 10 year sealed battery type. If you can change the battery, it is not compliant. Battery type Smoke Detectors are not required to be interconnected. Ensure that all Smoke and Carbon Monoxide Detectors are UL listed on the device.

Where to Locate Smoke Detectors:

Smoke Detectors are required on each level of the premises (basement, first floor, second floor), and outside of each separate sleeping area. Smoke detectors shall be within 10 feet of the bedroom sleeping areas. In homes with only one sleeping area on one floor, a detector is to be placed in the hallway outside the Bedrooms as shown in Figure 1.

In single floor homes with two separate sleeping areas, two detectors are required, outside each sleeping Area as shown in Figure 1. Additional smoke detectors may be placed in each bedroom for added protection.

In multi-level homes, Smoke Detectors should be placed by the bottom of each stairway on the ceiling. Basement level detectors are to be located in close proximity to the bottom of the basement stairwells as shown in Figure 2.

Where Not to Locate Smoke Detectors:

To avoid false alarms and/or improper operation, avoid installation of smoke detectors in the following areas:

Kitchens: Smoke from cooking may cause a nuisance alarm.

Bathrooms: Excessive steam from a shower may cause a nuisance alarm.

Crawl spaces and unfinished attics: Near force air ducts used for heating or air conditioning: Air movement may prevent smoke from reaching detector.

Near furnaces of any type: Air and dust movement and normal combustion products may cause a nuisance alarm.

The 4 inch "Dead Air" space where the ceiling meets the wall as shown in Figure 3.

POWER OUTAGE TIPS

BEFORE AN OUTAGE

- ◆ Check flashlights and battery-powered portable radios to ensure that they are working and that you have extra batteries. A radio is an important source of weather and emergency information during a storm. Inexpensive weather radios that broadcast automatically in the event of an alert can be purchased at various retailers.
- ◆ Make sure that your home is properly insulated. Caulk and install weather-stripping on doors and windows to keep cold air out.
- ◆ Install storm windows.
- ◆ To prevent pipes from freezing, wrap them in insulation.
- ◆ Let faucets drip a little to prevent freezing.
- ◆ Know the location of your water shutoff valves.
- ◆ In the event that the water supply may be affected, fill your bathtub and spare containers with water. Water in the bathtub should be used for sanitation only—pouring a pail of water from the tub directly into the toilet bowl will flush the toilet.
- ◆ Set your refrigerator and freezer to their coldest settings. During an outage, do not open the fridge or freezer doors; food can stay cold in a full refrigerator or a half-full freezer for up to 24 hours. Full freezers can stay cold for up to 48 hours! Just remember to reset the fridge and freezer back to normal once power is restored.
- ◆ If you have medication that requires refrigeration, check with your pharmacist for guidance on proper storage during an extended outage.
- ◆ Review the procedure for manually bypassing an electric garage door opener.

DURING AN OUTAGE

- ◆ Contact PSE&G at **800-436-7734** or www.PSEG.com to advise them of an outage in your area
- ◆ To view current outages in your area visit: www.outagecenter.PSEG.com
- ◆ Dress for the season, wearing several layers of loose-fitting, lightweight, warm clothing rather than one heavy layer of clothing. Outer garments should be tightly woven and water-repellent.
- ◆ Mittens are better than gloves.
- ◆ Wear a hat: most body heat is lost through the top of the head.
- ◆ Cover your mouth with a scarf to protect your lungs.
- ◆ Watch for signs of frostbite: loss of feeling and white or pale appearance in extremities such as fingers, toes, ear lobes, or the tip of the nose. If you see signs of frostbite, seek medical help immediately.
- ◆ Watch for signs of hypothermia: uncontrollable shivering, memory loss, disorientation, incoherence, slurred speech, drowsiness and apparent exhaustion. If symptoms are detected, get the victim to a warm location, remove any wet clothing, and warm the center of the body first. If the victim is conscious, give warm, non-alcoholic beverages. Seek medical help as soon as possible.
- ◆ In order to protect against possible voltage irregularities that can occur when power is restored, unplug all sensitive electronic equipment, including TVs, VCRs, stereos, microwave ovens, cordless telephones, computers, answering machines and garage door openers.

AFTER AN OUTAGE

- ◆ Be extra cautious if you go outside to inspect for damage after a storm. Downed or hanging electrical wires can be hidden by snowdrifts, trees, or debris and may be live. Never attempt to touch or move downed lines, and keep children and pets away from them.
- ◆ Check in with and help your neighbors, especially the elderly and physically challenged.
- ◆ Stay indoors until downed power lines are secured.
- ◆ Do not touch anything power lines are touching such as tree branches or fences. Always assume a downed line is a live line. Call your utility company to report any outage-related problem.

FIRE DEPARTMENT

DANGERS OF CARBON MONOXIDE

What is carbon monoxide?

- ◆ Carbon monoxide, or CO, is an odorless, colorless, and toxic gas. Because it is impossible to see, taste, or smell, CO can kill even before you are aware it is in your home. At lower levels of exposure, CO causes mild effects that are often mistaken for flu symptoms including headaches, dizziness, disorientation, nausea, and fatigue. The effects of CO exposure can vary greatly from person to person depending on age, overall health, and the concentration and length of exposure.

Where does carbon monoxide come from?

- ◆ CO gas can come from several sources, such as gas-fired appliances, charcoal grills, wood-burning furnaces or fireplaces, and motor vehicles.

Who is at risk?

- ◆ Everyone is at risk for CO poisoning, though medical experts believe that unborn babies, infants, children, senior citizens, and people with heart or lung problems are at the greatest risk.

PROTECT YOURSELF & YOUR FAMILY FROM CO POISONING

- ◆ Install at least one carbon monoxide alarm with an audible warning signal near the sleeping areas and outside individual bedrooms. One carbon monoxide detector on every level. Choose an alarm that is listed by UL (Underwriters Laboratories). Carbon monoxide alarms measure levels of CO over time and are designed to sound an alarm before an average, healthy adult would experience symptoms. It is very possible that you may not be experiencing any symptoms when you hear the alarm, but that does not mean that CO is not present.
- ◆ Have a qualified professional check all fuel-burning appliances, furnaces, venting, and chimney systems at least once a year.
- ◆ Never use your range or oven to help heat your home.
- ◆ Never use a charcoal grill or hibachi inside your home or garage.
- ◆ Never use a generator inside or in close proximity to your home.
- ◆ Never keep a car running in a garage. Even if the garage doors are open, normal circulation will not provide enough fresh air to reliably prevent a dangerous buildup of CO.
- ◆ When purchasing an existing home, have a qualified technician evaluate the integrity of the heating and cooking systems, as well as the sealed spaces between the garage and house.
- ◆ Natural gas detectors are also available in case of a gas leak in your home. They can be purchased as a CO/Natural Gas detector.

THE PRESENCE OF A CO ALARM IN YOUR HOME CAN SAVE YOUR LIFE!

WHAT DO I DO IF MY CO ALARM GOES OFF?

- ◆ **Call 911 immediately** and be sure to tell them how many people are feeling ill and what their symptoms are.
- ◆ Evacuate all occupants immediately.
- ◆ Do not re-enter the home without the approval of a fire department representative
- ◆ Call a qualified professional to repair the source of the CO

SPACE HEATER SAFETY

Forecasters predict a long, cold winter ahead, and the Teaneck Fire Department is concerned residents may supplement their central heating system with various types of space heaters. With that in mind, the Fire Department is providing the following information on space heaters and their use.

In a residential environment, space heaters (since they are portable) should be placed away from the edge of a bed or couch, and away from laundry or other household items that may fall on them. Space heaters need a minimum clearance of three feet of space around them, free from furniture, clothing, draperies, curtains, toys and other loose items of wood, plastic, cloth or paper. This clearance needs to be strictly maintained to ensure the safety of all occupants. Be aware that pets can also pose a danger by placing themselves or objects too close to heaters.

Electric heaters must only be plugged directly into a permanent wall outlet. Using an extension cord, even a "heavy duty appliance" extension cord, will drop the voltage and cause the electric heater to draw even more current, heating the plastic insulation which can cause the extension cord to erupt in flames. The outlet itself must be in good condition, tightly grasping the plug. If the cord is three-pronged, use only a three-pronged outlet. Adapters should not be used, as they can cause the same fires as extension cords. **"When on, never leave space heaters unattended".**

If you use a kerosene heater, you are bringing a flammable liquid indoors. Kerosene heaters must be allowed to cool, then taken outdoors away from the house to be fueled. Never use gasoline or used motor oil to fuel a kerosene heater, and be sure to clean up any spills. The right grade of kerosene must be used to avoid an explosion/fire. Kerosene heaters also use up oxygen and emit carbon monoxide, so keep a window partly open when using one. **Kerosene heaters are illegal in any rental housing, business, commercial or public building, according to the NJ Uniform Fire Code.**

If you are contemplating a permanent additional heat source, such as a fireplace, wood stove, or coal stove, stop by the Building Department first. Permanent installations of fuel-burning appliances are strictly regulated by the NJ Uniform Construction Code. Building inspectors will carefully check that all clearance, venting and other safety requirements of the manufacturer's labeled installation instructions are completely followed.

Should you have any fire safety questions, contact the Teaneck Fire Department, Fire Prevention Bureau at (201) 808-8080, ext. 5206. For fixed heater code questions, the Teaneck Building Department can be reached at (201) 837-1600, ext. 1100.

FIRE DEPARTMENT

POLICE DEPARTMENT

PROPER CHIMNEY CARE

Chimney fires can burn explosively – noisy and dramatic enough to be detected by neighbors or people passing by. Flames or dense smoke may shoot from the top of the chimney. Homeowners report being startled by a low rumbling sound that reminds them of a freight train or a low flying airplane. However, those are only the chimney fires you *know* about. Slow-burning chimney fires don't get enough air or have fuel to be dramatic or visible. But, the temperatures they reach are very high and can cause as much damage to the chimney structure – and nearby combustible parts of the house – as their more spectacular cousins.

Creosote & Chimney Fires: What You Must Know

Fireplaces and wood stoves are designed to safely contain wood-fuel fires, while providing heat for a home. The chimneys that serve them have the job of expelling the by-products of combustion – the substances produced when wood burns. These include smoke, water vapor, gases, unburned wood particles, hydrocarbon, tar fog and assorted minerals. As these substances exit the fireplace or wood stove, and flow up into the relatively cooler chimney, condensation occurs. The resulting residue that sticks to the inner walls of the chimney is called creosote.

Creosote is black or brown in appearance. It can be crusty and flaky...tar-like, drippy and sticky...or shiny and hardened. Often, all forms will occur in one chimney system. Whatever form it takes, creosote is highly combustible. If it builds up in sufficient quantities – and the internal flue temperature is high enough – the result could be a chimney fire. Certain conditions encourage the buildup of creosote. Restricted air supply, unseasoned wood and, cooler than normal chimney temperatures are all factors that can accelerate the buildup of creosote on chimney flue walls. Air supply may be restricted by closing the glass doors, by failing to open the damper wide enough, and the lack of sufficient make-up air to move heated smoke up the chimney rapidly (the longer the smoke's "residence time" in the flue, the more likely is it that creosote will form). A wood stove's air supply can be limited by closing down the stove damper or air inlets too soon or too much. Burning unseasoned wood – because so much energy is used initially just to drive off the water trapped in the cells of the logs– keeps the resulting smoke cooler, than if seasoned wood is used. In the case of wood stoves, overloading the firebox with wood in an attempt to get a longer burn time also contributes to creosote buildup.

Good Morning Check-up Program

Administered by the Teaneck Fire Department, this program is designed to assist elderly and shut-in residents. On a daily basis, the department contacts participants to determine their well-being. **Please contact the Teaneck Fire Prevention Bureau (201) 808-8080 ext. 5206 to sign up.**

TOWNSHIP ALERTS

Nixle and Everbridge are the official communication systems used to send out real-time alerts and important community information to our residents. We utilize these services to send out timely traffic information, weather warnings, snow emergency declarations, public health emergencies, and township events. For more information, visit <http://www.teanecknj.gov/subscribe/>. You may also follow us on Twitter/X at TeaneckPD for a rebroadcast of Nixle Alerts.

The Teaneck Police Department is on social media! Like and follow us below to stay up to date with press releases, department news, special events and more:

Facebook– TeaneckPD

Instagram- @teaneckpd

STREET LIGHT OUTAGES

Residents can report street light outages by calling PSE&G at 800-436-7734 or by visiting their website at www.PSEG.com. Alternatively, you can call the Teaneck Police Department at (201) 837-2600. **When calling, please have location and pole number available.**

MEDICINE DROP BOX

Project Medicine Drop is an initiative of the New Jersey Division of Consumer Affairs and participating law enforcement agencies. To stop the abuse and diversion of prescription drugs from homes, we participate in Project Medicine Drop. A secure drop box is available in Police Headquarters for safe disposal of pills, capsules, patches, and inhalers. We can even take pet medications. No Syringes or liquids are accepted.

COMMUNITY POLICING PROGRAMS

The Teaneck Police Department is a service oriented department that combines a reactive enforcement approach as well as a proactive collaborative one. We offer many programs ranging from emergency preparedness seminars, active shooter training, building threat assessments, home security surveys, senior driving programs, car seat installation assistance, fraud prevention, Junior Police Academy, and National Night Out. For more information on any of these programs or to request assistance, call us at (201) 837-8759, email communitypolicing@teaneckpolice.org and follow us on social media.

TRAFFIC CONCERNS

We frequently monitor traffic flow through the township and are committed to addressing traffic concerns reported by residents. To report a traffic concern, visit <https://www.teanecknj.gov/living-in-teaneck/police-department/report-a-traffic-concern-here/>.

POLICE DEPARTMENT

FINANCE DEPARTMENT

IN CASE OF EMERGENCY

9-1-1 is the number to call in an emergency. By calling 9-1-1, you instantly start an emergency response by speaking with a trained telecommunicator who can not only start emergency services to you, but can also provide instructions in the event of cardiac arrest, unconsciousness, traumatic injuries, choking, hazmat situations, and more. For non-emergency assistance in a situation that is not an immediate threat to life or property, you may call our main number at 201-837-2600.

FRAUD & IDENTITY THEFT FORMS

To streamline the reporting process, we now offer the ability to submit a Civilian Incident Report Form and report Fraud and Identify Theft directly via the internet. Visit <http://www.teanecknj.gov/living-in-teaneck/police-department/online-police-reporting-forms/>.

PARKING PERMISSIONS

We can grant temporary permission to park in certain circumstances in violation of the township ordinances, such as commercial and time-restricted parking. Requests may be made by calling 201-837-2600. Note that we are unable to grant permission to vehicles violating state statutes, and no permission will be granted for parking during a snow emergency.

CRASH REPORTS

Obtaining a Crash Report is now easier than ever. Crash Reports can be picked up at the Records Bureau window located in headquarters from 8:30 am to 4:30 pm, Monday to Friday, excluding holidays. Crash Reports may also be requested by calling 201-837-2551 with the option of having the report sent to you electronically. Please note that only Crash Reports may be sent in this manner.

VACATION HOME CHECKS

To help secure your home while you are on vacation, we offer vacation home checks, which may be requested by calling 201-837-2600.

THE TEANECK POLICE DEPARTMENT IS HIRING

The Teaneck Police Department utilizes the N.J. Civil Service Commission Law Enforcement Entry Examination to obtain potential candidates for the position of police officer. If you wish to join the Teaneck Police Department, this is your first step. For more information on the yearly examination, visit <http://www.nj.gov/csc/jobs/publicsafety/>. Follow us on social media for up-to-date hiring information for police officer, dispatcher, and other civilian job opportunities!

TAX PAYMENTS-ONLINE

The Township offers convenient services for tax payments. Property owners can visit www.teanecknj.gov and click on "Pay Taxes" to remit payment for their quarterly property taxes. E-Check and credit card payments can only be made via the Internet.

A convenience fee charged by the service provider will be incurred by the user for each transaction. The fee for using an E-Check is a flat \$1.95 per transaction. The fee for using a credit card or debit card is 2.95% of the transaction amount.

ONLINE TAX SALE

The Township of Teaneck will hold its **Annual Tax Sale** allowing the Township an opportunity to collect delinquent taxes on a more timely basis. A tax sale is not the sale of a homeowner's property. Rather, a tax sale is the sale of delinquent taxes on a property to a third party. Upon the issuance of a tax lien, the property owner is responsible to remit outstanding property taxes through the Township for the third party who acquired the outstanding tax lien.

The Township anticipates collection of all property taxes in the year due. In order to avoid inclusion in the Annual Tax Sale, property owners are encouraged to pay all taxes by the due date. Furthermore, it is critical to pay 4th quarter taxes on time, as the date for inclusion in the tax sale and imposition of associated fees begins 50 days prior to the tax sale date.

It is imperative that the Township collects delinquent taxes in the year they are due in order to reduce the reserve for uncollected taxes. A reduction in the reserve for uncollected taxes will ultimately raise our tax collection percentage and reduce the reserve on uncollected taxes line item in the municipal budget. The date for 2026 will be January 21, 2026.

CLERK'S OFFICE

AFFORDABLE COMMUTER PARKING

Resident and non-resident commuters may use decal parking on Elizabeth Avenue, Ward Plaza, and Puffin Way. Decals may be purchased for an annual cost of **\$50** for residents per decal and **\$100** for non-residents per decal from the Township Clerk's Office, located on the second floor of the Administration Building at 818 Teaneck Road.

PARKING DECAL RENEWAL INFORMATION

The Township Clerk's Office reminds all Township merchants, eligible Township residents, and resident commuters that parking permits/decals expire on December 31 of each year at midnight.

Applications for parking permits for the 2026 calendar year can be found on our website, www.teanecknj.gov, or can be obtained from the Clerk's Office on the second floor of the Administration Building (South Entrance). The fee is **\$50.00** per vehicle.

Please note that applicants should be prepared to present the following documents:

1. Valid driver's license
2. Valid vehicle registration (**NOTE: Both registration and driver license should have the same Teaneck address; if not, you will be required to file for a change of address through the New Jersey Department of Motor Vehicles**)
3. Other proof of residence may be required.

Town-wide Garage Sale Dates

In 2025 the Township held four town-wide garage sales in the spring and fall months.

Each season's garage sale drew an average of 80 participants who were able to sell items in front of their residence and interact with neighbors and visitors.

The Manager's Office, in collaboration with the Township Council, was able to register participants through our website that included an interactive map with pins showing each participant's address and goods being sold at each address. Kindly, do not post own signs on telephone polls.

THE 2026 DATES ARE:

- ♦ Saturday, April 18 & Sunday, April 19

*Sign-up begins on Monday, April 13

**Rain Dates: Saturday, April 25 & Sunday, April 26

- ♦ Saturday, October 17 & Sunday, October 18

*Sign-up begins on Tuesday, October 13

**Rain Dates: Saturday, October 24 & Sunday, October 25

BUILDING DEPARTMENT

Building Permits 101

PLAN AHEAD FOR YOUR SPRING PROJECTS

The time to start planning for your spring home improvement projects is now. While most homeowners are enjoying the sights of a winter wonderland, savvy residents with foresight are planning for the construction of their new decks, patios, pools, or additions. Doing one's homework is a key factor in realizing an enjoyable, cost-effective project.

PROPERTY SURVEYS

All projects that involve physical changes to your property will require the submission of an accurate property survey. Start early in the planning process to locate your survey and verify that it shows all improvements on the property. This survey must show not only the outline of the house but also the driveway, all walkways, mechanical equipment units, swimming pools, sheds, detached garages, etc. These surveys may only be prepared by a surveyor licensed in New Jersey. The property survey will be used to show location of the proposed construction, verify distance from the property line to the construction, and to calculate the percentage of the lot covered by improvements. When your project is completed, have your survey updated so you can be ready for the next project.

IT ALL STARTS WITH ZONING

Decks, patios, pools, and additions all require a Zoning Permit prior to installation. An application for a zoning permit can be obtained from the Building Department or on the Township's website. Instructions for completing this application are included with the form. It is recommended that you call

the Building Department and schedule a meeting with the Zoning Officer early on in the planning process. You must bring a copy of your survey with you so the Zoning Officer can provide development requirements tailored to your property. Based on the volume of applications submitted to the office, it may take up to 10 business days to review your application, so please plan ahead. When your project complies with all Township development regulations, your application will be approved and you will be issued a Zoning Permit. Now you are ready for the next step.

TELL US WHAT YOU WANT TO BUILD

Decks, pools, and additions all require construction permits issued under the New Jersey Uniform Construction Code. The applications for these projects can be obtained from the Building Department, from the Township website, or through the State Department of Community Affairs' Division of Codes and Standards website (www.state.nj.us/dca/divisions/codes). These applications ask for technical information about how your project will be constructed. Your architect or contractor can provide information necessary for completing the forms. Here again, Building Department staff is available to discuss your project, either in person, on the telephone, or by e-mail. Staff members can let you know what codes need to be met and what drawings need to be submitted. Plan ahead: Based on the volume of applications submitted to the office and the complexity of your project, it may take up to 20 business days to review your application. Some projects involve review by the Building, Electric, Plumbing, and Fire Inspectors. When your project complies with all of the State codes, your application will be approved and you will be issued a Construction Permit.

GETTING A SHOVEL IN THE GROUND

Finally, permits in hand, construction can begin. Don't forget to call for your progress inspections. Either the homeowner, architect, or contractor can assume the responsibility for calling for inspections. These inspections provide assurance that your project is being built in accordance with state codes. Again, plan ahead: There may be many other projects under construction at the same time, although with a full-time inspection staff, many inspection requests may be accommodated the next business day!

CLOSING IT ALL OUT

Prior to occupying your new space, Final Inspections must be performed. In addition, a Final As Built Survey may be required according to the Zoning and/or Engineering approvals. You then may apply for the Certificate of Occupancy, which must be obtained prior to use of the new space. The safety of the people using your new deck, pool, or addition is our primary concern.

Stormwater Regulations

A Guide to Healthy Habits for Cleaner Water

Stormwater pollution is one of New Jersey's greatest threats to clean and plentiful water. Pollution on streets, parking lots and lawns is washed by rain into storm drains, then directly to our drinking water supplies, as well as the ocean and lakes. Fertilizer, oil, pesticides, detergents, pet waste, grass clippings and more all end up in our water!

By making small changes in our daily lives, we can keep common pollutants out of stormwater. This will produce cleaner water and save the high cost of cleaning up once water becomes dirty.

As part of New Jersey's initiative to keep our water clean and plentiful and to meet federal requirements, many municipalities and other public agencies, including colleges and military bases, must adopt ordinances prohibiting various activities that contribute to stormwater pollution. Breaking these rules can result in fines and other penalties.

As a resident or business owner, it is important to know easy things you can do every day to help protect our water:

LIMIT YOUR USE OF FERTILIZERS AND PESTICIDES:

- ◆ Perform a soil test to see if you need a fertilizer
- ◆ Do not apply fertilizers if heavy rain is predicted
- ◆ Research alternatives for pesticides
- ◆ Maintain a small lawn and keep the rest of your property or yard in a natural state with trees and other native vegetation that requires little or no fertilizer
- ◆ If you use fertilizers and pesticides, follow the instructions on the label on how to correctly apply it. Make sure you properly store or discard any unused portions.

PROPER USE AND DISPOSAL OF HAZARDOUS PRODUCTS:

- ◆ Hazardous products include some household or commercial cleaning products, lawn and garden care products, motor oil, antifreeze & paints
- ◆ Do not pour any hazardous products down a storm drain; storm drains are usually connected to local bodies of water and the water is not treated
- ◆ If you have hazardous products in your home or workplace, make sure you store or dispose of them properly. Read the label for guidance.
- ◆ Use natural or less toxic alternatives when possible
- ◆ Recycle used motor oil
- ◆ **In the event of a hazardous material spill, immediately call 9-1-1**

KEEP POLLUTION OUT OF STORM DRAINS:

- ◆ Municipalities and many other public agencies are required to mark certain storm drain inlets with messages reminding people that storm drains are connected to bodies of local water
- ◆ Do not let sewage or other waste flow into a stormwater system

DO NOT FEED WILD LIFE:

- ◆ Do not feed pigeons, ducks, and geese in public areas

DO NOT LITTER:

- ◆ Place litter in trash receptacles
- ◆ Recycle. Recycle. Recycle.
- ◆ Participate in community clean-ups

DISPOSE OF YARD WASTE PROPERLY:

- ◆ Follow the Township's yard waste rules; keep leaves and grass out of storm drains
- ◆ Use leaves and grass clippings as a resource for compost
- ◆ Use a mulching mower that recycles grass clippings into the lawn

CLEAN UP AFTER YOUR PETS:

- ◆ Use newspaper, bags or pooper-scoopers to pick up waste.
- ◆ Dispose of wrapped pet waste in the trash; Never discard pet waste in a storm drain

CONTACT INFORMATION

For more information on stormwater related topics, visit www.njstormwater.org or contact the NJ Department of Environmental Protection, Municipal Storm Water Regulation Program at (609) 633-7021. Additional information is also available at the US Environmental Protection Agency websites:

WWW.EPA.GOV/NPDES/NPDES-STORMWATER-PROGRAM

WWW.EPA.GOV/NPS

DUMPSTER POD/PERMITS

The use of Temporary Storage (PODS) and Refuse Containers (Roll-off or Dumpster) is regulated by the Engineering and Building departments, depending on their location.

Engineering Department

If a dumpster is to be placed on a street, an Engineering permit is required. The fees are **\$75.00** for the first day and **\$50.00** for each additional day (including weekends and holidays). If it is a county road, a permit is required from Bergen County. PODS are not permitted in the street under any circumstance.

Building Department

Dumpsters and PODS are permitted in the driveway or on a hard surface. They may be placed on yards/unpaved surfaces only with the permission of the Construction Official. The fees for these are **\$30.00**. The permit is valid for 30 days and may be renewable a maximum of two times. If it is associated with a construction permit, the permit is valid until seven days after the CO is issued, or 180 days, whichever is less.

Information, rules, and applications can be obtained from the respective departments at the municipal building.

HEALTH DEPARTMENT

HEAT REGULATIONS

Landlords who provide heat should be aware that beginning the 1st of October until the 1st of May each year, they are required to maintain the following as per Township of Teaneck Code 21-31 and 21-32:

Heat must be furnished for every occupied room in your dwelling so that the minimum temperature is 68 degrees Fahrenheit between 6am and 11pm and a minimum temperature of 55 degrees Fahrenheit between 11pm and 6am or whenever the street temperature falls below 40 degrees Fahrenheit. You must also contact the Health Department whenever a breakdown occurs requiring a repair to the heating system.

This is also a great time to install carbon monoxide detectors and smoke detectors. These devices can be purchased at any local hardware store or home supply center. If you have any questions, please contact the Teaneck Health Department at (201) 837-1600 ext. 1500 or health@teanecknj.gov.

PROPERTY MAINTENANCE CODE

Residents and property owners are expected to comply with the Property Maintenance Code. Key requirements include ensuring:

- Lawns, hedges, and bushes are properly trimmed and maintained to prevent overgrowth.
- Properties remain free of hazards and unsanitary conditions, including:
 - ◊ Accumulations of refuse such as brush, weeds, broken glass, garbage, and debris
 - ◊ Dead or dying trees and limbs
 - ◊ Loose and overhanging objects, as well as dangerous accumulations of ice and snow
 - ◊ Ground surface hazards i.e. holes, icy patches, and animal waste
 - ◊ Accumulations of stormwater
 - ◊ Sources of pest infestation
 - ◊ Structures and property accessories are properly maintained to uphold the neighborhood's standards.

(Township of Teaneck Code, Chapter 29A)

CHILD HEALTH CLINIC

The Teaneck Health Department's Child Health Clinic offers free Well Child services for children from birth through high school. Held monthly, the clinic provides all required immunizations for school-aged children, as well as well-baby exams and immunizations for infants and preschoolers. Children who live in Teaneck and are either uninsured or underinsured with NJ FamilyCare Plan A are eligible for these services at no cost. To schedule an appointment, please contact Public Health Nurse Michele Schumeyer at (201) 227-6251 or email mschumeyer@holyname.org.

CONTACT US

If you have any questions or concerns, please do not hesitate to contact the Teaneck Department of Health and Human Services at (201) 837-1600 ext. 1500 or health@teanecknj.gov.

SOCIAL SERVICES

The Department of Health and Human Services connects residents with essential support programs and resources. Assistance is provided with applications for public benefits, housing referrals, utility assistance, food insecurity, mental health services, and more. Staff offer guidance with compassion and confidentiality to help individuals and families navigate challenges and access the care they need. Please call (201) 837-1600 ext. 1503 or email social_svcs@teanecknj.gov for more information or assistance.

PET LICENSES

The Health Department would like to remind dog and cat owners that the license renewals will begin on January 1, 2026 for dogs and April 1, 2026 for cats. You will have until February 28, 2026 to renew dog licenses and until May 31, 2026 to renew cat licenses. Renewals submitted after these deadlines will be subject to a \$15 late fee. Annual licensing fees are \$12 for spayed/neutered dogs/cats and \$15 for non-spayed/non-neutered dogs/cats. Failure to license your dog or cat may result in the issuance of a summons or may be fined up to \$500.00.

Pet license applications can be submitted online at www.sdlportal.com/towns/nj/bergen/teanecktwp. To receive a paper application, please visit the Health Department in person or contact us to request a copy.

Free rabies shots can be arranged through the Bergen Veterinary Hospital at (201) 837-3470 or through the Bergen County Animal Shelter at (201) 229-4600 for available clinic dates. Pet owners should note that rabies shots that expire prior to November 1, 2026 for dogs and February 1, 2027 for cats, are not valid for licensing purposes.

PICK UP AFTER YOUR DOG

Residents must clean up after their dogs promptly and dispose of waste in a sanitary manner on both public and private property. When walking dogs in public, owners must ensure their pets are curbed, properly leashed or restrained, and that they carry a suitable means of waste disposal at all times. *(Township of Teaneck Code, Section 6-28)*

ANIMAL CONTROL

Animal control services in Teaneck are handled by Bergen County Animal Control (BCAC). Residents are to contact the BCAC at (201) 229-4616 to report the following:

- * Sick, injured, dangerous or stray animals
- * Removal of dead animals on public property
- * Removal of nuisance wildlife on public property
- * Report a lost pet

Bergen County Animal Control will respond to complaints on private property for the removal of dead animals or to trap nuisance wildlife and will charge a fee directly to the resident for these services. Dead animals located in public places can be called in to the Department of Public Works for removal at: (201) 837-1600, ext. 1700.

For after-hours service calls, residents should contact the Teaneck Police Department at (201) 837-2600 (24 hours a day/365 days a year).

All other non-emergency animal calls/complaints can be made to the Health Department.

RECREATION DEPARTMENT

RECREATION DEPARTMENT

CREATING COMMUNITIES THROUGH
PEOPLE, PARKS, AND PROGRAMS
